The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

PRINCE EDWARD ISLAND MEDICAL LAW.

BY-LAWS OF THE MEDICAL COUNCIL.

- Following are the subjects of the matriculation examination:
English—Grammar, composition, literature, and rhetoric.
Arithmetic—Including vulgar and decimal fractions, the extraction of the square and cube root and mensuration.
Algebra—To the end of quadratic equations.
Geometry—First three books of Euclid.
Latin—First two books of Virgil's *Æneid*, or three books of *Cæsar's Commentaries*, translation and grammar.
Elementary mechanics of solids and fluids, comprising the elements of statics, dynamics and hydrostatics. Elementary chemistry.
Canadian and British history; with questions in modern geography.
Translation and grammar in any two of the following subjects: Greek, French, German.

Fifty per cent of the marks in each subject shall be required for a pass, and 75 per cent in all subjects for honors.

If 50 per cent be made in all the subjects but one, the candidate may begin his professional studies, and present himself in that subject alone at the next examination without additional fee.

Candidates falling in more than one subject will be allowed those subjects in which they have passed, but will be required to pay an additional fee of \$5.00, on presenting themselves for examination in the remaining subjects, and in the meantime may not begin their professional studies.

No candidate shall be admitted to such matriculation examination, unless he shall have given notice to the registrar at least fourteen days previous to such examination of his intention to present himself, and shall before the examination have paid to the registrar a fee of ten dollars.

The council will accept fully, or recognize pro tanto, the examinations required by the medical councils or boards of New Brunswick or Nova Scotia, also of any

other province or territory in Canada which may hereafter reciprocate with this council in this respect.

Except where otherwise specified, the council recommends as text books the books prescribed by the board of education of this province, for students preparing for an academic teacher's license.

The matriculation examinations shall take place beginning on the first Thursday in May and September in each year.

The examiners shall be the chief superintendent of education and the secretary of the school board of the City of Charlottetown for the time being, or such other person or persons as the council may from time to time appoint.

The council shall pay to each examiner for each examination, such fees as it may from time to time decide upon.

2. Professional studies and examinations:

The curriculum of professional studies shall embrace the following:

Attendance during four years at university, college or incorporated school of medicine in good standing, upon a graded collegiate course of four sessions of not less than eight months each, such course to include satisfactory and sufficient lectures and instruction in anatomy, practical anatomy, chemistry, practical chemistry, physiology, histology, materia medica, pharmacy, therapeutics, surgery, clinical surgery, medicine, clinical medicine, obstetrics, diseases of women and children, Medical jurisprudence, hygiene, pathology (including bacteriology and post-mortem examinations), also attendance for a period of not less than twenty-four months upon the general practice of a hospital containing not less than one hundred beds.

No candidate shall be admitted to the professional examination unless at least fourteen days before such examination he shall have made a written application to the registrar in a form prescribed by the Council, and shall have produced before the registrar the required fee for such examination, also the fee for registration, which latter fee shall be refunded in the event of failure to pass the examination. All applications shall be submitted to the council by the registrar, and shall be subject to its approval.

The examiners shall be the members of the council, or such other persons as the council may from time to time appoint.

The examinations shall take place in the months of July and October in each year, at such time and place as the president shall appoint.

In order to pass, candidates must make 50 per cent of the marks in each subject.

If 50 per cent be made in all the subjects but one, he may present himself for examination in this subject alone, with or without additional fee, as the council shall decide.

The fee for the professional examination shall be \$15.00, which fee shall in all cases be paid into the hands of the registrar prior to the examination.

3. No name shall be placed upon the Prince Edward Island register without the order of the council.

4. If from any cause the registrar is unable to attend any meeting of the council, it shall be competent for the council to appoint a registrar pro tem., who shall have all the powers of the registrar.

5. Each member of the Medical Society shall pay to the registrar an annual fee of not more than \$5.00 (the precise fee for the year to be decided upon by resolution of the council), and which fee shall be payable on the first day of July in each year.

6. The fee for registration in the Prince Edward Island medical registrar shall be \$20.00, which fee shall in all cases be paid to the registrar before such registration is effected.

7. Any person registered in any province of Canada which reciprocates with this province, under the provisions of Sec. 12 of the Prince Edward Island Medical Act, and who wishes to reside in this province, shall be required, in order to obtain registration in this province, to bring from the registrar of the province he is leaving a certificate showing that he is at the time a legally qualified medical practitioner of such province, and that no charge of a criminal or professional nature is pending against him.

MEDICAL LAW OF QUEBEC.

Sec. 6.—ADMISSION TO THE PRACTICE OF MEDICINE, AND THE PRACTICE OF MEDICINE.

"4002d. For the purpose of examining candidate sfor the practice of medicine, a board shall be established called the 'Medical Board of Examiners,' two-thirds of whom shall be professors of the faculties of medicine of the universities mentioned in article 3972, and one-third representatives of the College.

The examiners of such medical board shall remain in office for four years.

"4002e. 1. The date of the examinations and the total number of examiners shall be determined by the deans of the faculties of medicine of each of the universities, and the chairman of the Provincial Medical Board.

The English and French languages shall be the only official languages for such examinations.

Examinations shall be held in each of the universities.

"4002f. 1. The candidates for the practice of medicine who wish to pass the examination before the Medical Board of Examiners, shall, in addition to the other conditions prescribed by by-law, give the registrar of the College a written notice in accordance with Form 5, at least fifteen days before the examination, that he wishes to pass, and such notice shall be accompanied by the fee fixed by by-law.

2. Such notice shall set forth the names and surname of the candidate as entered in his certificate of birth, and shall indicate the university where he wishes to pass his examination.

"4002g. 1. The examiners whom the Provincial Medical Board shall assign to Laval University at Quebec, and to Laval University at Montreal shall be French-speaking physicians, and those whom it shall assign to McGill University shall be English-speaking physicians.

2. The universities and the College shall each pay the examiners they appoint.

"4002h. The reports of the above examinations made in accordance with Form 6 shall be sent to the registrar of the College. The Provincial Medical Board shall grant a license in accordance with such reports, and on presentation of a university degree of doctor of medicine. The rights granted by such license shall be exercised only from the date when the licentiate shall have taken the oath according to Form 12.

"4002i. No person who has passed the examination for admission to practice medicine, shall commence to practice as a physician, until after the expiration of five consecutive years from the date of the registration in the office of the College of his bachelor's diploma or certificate of admission to study.

"4002j. No person can practice medicine, surgery and midwifery in the Province, unless the has obtained a license from the Provincial Medical Board. To obtain such license, he must comply with the requirements of this section and be the holder of a university degree of doctor of medicine granted by one of the universities approved by the Provincial Medical Board.

"4002k. Without limiting the meaning of the words 'practice of medicine', the attending at confinements, treating habitually and continuously following the treatment of diseases or surgical affections, either by giving medicine or by making use of mechanical, physical or chemical processes or of radio-therapy or of X rays, shall constitute the practice of medicine.

"4002l. The license permitting the practice of medicine, surgery and midwifery in this Province, shall be signed by the president, and by the registrar and by one of the vice-presidents, and shall bear the seal of the College.

"4002m. Every member of the medical profession, who, at the time of the passing of the act 40 Victoria, chapter 26, was the holder of a license from the College, and who has not subsequently caused himself to be registered according to this section, is entitled to do so provided he proves his status to the satisfaction of the registrar and pays the prescribed fee for obtaining the license.

"4002n. Subject to the privileges granted by article 4002o every person who having followed a regular and complete course in a university outside the Province, has obtained a degree of doctor of medicine from such university, and who has moreover followed a medical course considered equivalent by the Provincial Medical Board to that given by the universities of the Province of Quebec, and who furnishes to the satisfaction of the said Board proof that he has passed a preliminary examination equivalent to that required in the Province of Quebec, shall be entitled to a license on payment of the fees exacted, provided he follows the last year's

course of one of the schools of medicine in this Province and successfully passes the examination for candidates to the practice of medicine before the Medical Board of Examiners.

"4002o. The persons whose names are registered in the medical register of the United Kingdom of Great Britain and Ireland, under the Imperial medical acts, shall be entitled, on producing proof of such registration, and of their good reputation, and on payment of the fees then exigible for granting such license, to obtain such a license without having to pass any examination, provided they establish, to the satisfaction of the Provincial Medical Board:

1. That they had obtained from the Provincial Medical Board, a certificate of admission to study medicine five years at least before their registration in the medical register of the United Kingdom; or

2. That they are registered in the medical register of the United Kingdom and have been qualified to practice their said profession in the said United Kingdom, after a period of not less than five years' study during which they have resided without interruption in the said United Kingdom.

This article shall take effect only in so far as the Imperial Medical Act of 1886, and its amendments shall apply to the Province of Quebec.

"4002p. The decision of the Provincial Medical Board as to the acceptance of the certificates mentioned in articles 4002n and 4002o, is final and without appeal.

"4002q. As soon as a medical board of examiners is established similar to that established in this section or as soon as there is established an institution recognized by the Legislature of any other province of Canada, as the only board of examiners for the purpose of granting certificates of competency, and in which the course of study is deemed equivalent to that in the Province of Quebec, the holder of such certificate shall, upon satisfactory evidence be entitled to registration by the Provincial Medical Board of the Province of Quebec, provided the same privilege be granted by such medical board of examiners or institution to the holders of certificates from the Provincial Medical Board of the Province of Quebec.

"4002r. No person entitled to be registered under this section, and who while practicing medicine, surgery and midwifery in the Province, neglects or omits to have himself registered, can claim any of the rights and privileges granted by this section, and he shall be liable to all the penalties imposed by it or by any other act, against any person practicing medicine, surgery and midwifery without having been registered as required.

Every physician may keep the medicines, drugs, and the medical, chemical, or mechanical apparatus which he may require, and may use the same in the practice of his profession.

"4002s. 1. Practicing medicine, surgery or midwifery under a false name is prohibited under the penalty enacted by article 4002rr.

2. Midwives are forbidden to use instruments. In the case of a difficult confinement they shall call in a licensed physician under the penalty enacted by article 4002rr."

MEDICAL LAW OF SASKATCHEWAN.

REGISTRATION.

29. The council shall cause to be kept by the registrar a book to be known as the register in which shall be entered the name of every person entitled to be registered according to the provisions of this Act and those persons only whose names are inscribed in the register and who are not under suspension by the council shall be deemed to be qualified and licensed to practice medicine, surgery and midwifery in the province except as hereinafter provided, and such register shall be at all times open and subject to inspection by any person.

30. The council shall admit upon the register:

(a) Every person registered as a member of The College of Physicians and Surgeons of the North-West Territories at the time of the coming into force of this Act and whose fees at such time are fully paid to the said college;

(b) Every such person as aforesaid whose fees are not fully paid up upon payment of the fees in arrears by such person as shown by the list referred to in section 5 hereof which fees shall be paid to the registrar of the college together with the total amount of the annual fees levied by the college from the date of the coming into force of this Act until the date of the registration of such person;

(c) Any person who shall produce a diploma of qualification from any college or school of medicine and surgery recognized by the college which exacts for such diploma attendance upon a course of lectures extending over a period of four years and embracing at least six months of each year, evidence of which shall be produced if required, and who shall furnish to the council satisfactory evidence of identification and pass before the members thereof or examiners appointed by them for the purpose a satisfactory examination appertaining to the profession of medicine and his fitness and capacity to practice medicine, surgery and midwifery and shall pay to the registrar of the college the sum of fifty dollars towards defraying the expenses of the examination board and in addition the fee for registration.

31. The council may at any time direct the name of any person improperly registered to be erased from the register by the registrar and such name shall be so erased.

32. It shall be the duty of the registrar to keep his register correct in accordance with the provisions of this Act and the rules, orders and regulations of the council, and he shall from time to time make the necessary alterations in the addresses or qualifications of the persons registered under this Act, and the said registrar shall perform such other duties as may be imposed on him by the council.

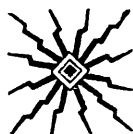

33. Whenever there is established under the Act of the Parliament of Canada known as The Canada Medical Act 1902 or any Act in amendment thereof or substitution therefor a registrar for Canada of medical practitioners under the control of the medical council appointed or elected pursuant to the provisions of the aforesaid Act or Acts, then notwithstanding anything in this Act contained, any person duly registered in the said register for Canada as a medical and surgical practitioner shall be deemed qualified and entitled to be registered in the register of the province as a duly qualified medical and surgical practitioner, and such person and no other shall be registered and such registration shall be made upon production of a certificate under the hand of the registrar of the said medical council of Canada certifying that such person is duly registered in the said register of Canada, and upon satisfactory proof of the identity of such person, provided that such person may be required to pay such fee for such registration in the province as the council of the province may impose in that behalf, and provided that the provisions of this section shall not apply to or affect any person duly registered under the said Act at the time The Canada Medical Act 1902 or any amendment thereof or substitutive Acts therefor become operative.

FEES.

34. The fee for registration under this Act shall be fifty dollars.

35. Each member shall pay to the registrar or to any person deputed by the registrar to receive it, such annual fee as may be fixed by by-law of the council towards the general expenses of the college, which fee shall be payable on the first day of January in each year and such fee shall be deemed to be a debt due by each member of the college and shall be recoverable with costs of suit in the name of the college:

Provided that the council may by resolution remit any annual fees due to the college by any member who is or has been resident out of the province during the period in respect of which such fees became payable.

LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see
Supplement. Refer to Index for Location.

ABBREVIATIONS:

R. Regular; H., Homoeopathic; Ecl., Eclectic; P. M., Physio-Medical; *, No report received;
%, Holds certificate of Examining Board; †, Legally authorized under the "years of practice"
section of the act; ‡, Dentist; R. D. 1, Rural Free Delivery No. 1.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is
located immediately follows and then the population of the place. The names of physicians
appear under the postoffice name, the first number (the key to which will be found on
pages 143-189) indicates the college of graduation, and the last number the year in which
diploma was granted.

MEDICAL LAW OF NEWFOUNDLAND.

Cap. IX.—An Act respecting the Newfoundland Medical Board.

Whereas an act was passed in the 56th year of the reign of her late majesty, entitled "The Newfoundland Medical Act, 1893;"

And whereas a medical board was appointed under the provisions of said act, and consisted of the following medical practitioners, viz.: Henry Shea, William M. Allan, J. S. Tait, H. Rendell, N. McKendrick, J. G. Duncan, and N. S. Fraser;

And whereas it is advisable to enlarge the powers of the said board:

Be it therefore enacted by the Governor, Legislative Council and House of Assembly, in Legislative Session convened, as follows:

1. The following medical practitioners, namely: Henry Shea, W. M. Allan, J. S. Tait, H. Rendell, N. McKendrick, J. G. Duncan and N. S. Fraser, and their successors under this act, shall be and are hereby constituted a board for the purposes of carrying out the provisions of this act, and shall be known as "The Newfoundland Medical Board."

2. The members of the said board shall hold office during good behavior or until voluntary resignation, subject to removal at any time by the governor in council upon the petition of five members of the said board.

3. Any vacancy in the said board shall be filled by the registered medical practitioners of New Foundland, by election in such manner and subject to such rules as may be made by the said board. All registered medical practitioners shall be entitled to vote at any such election.

4. The board shall hold an annual meeting at such time and place in Newfoundland as may be determined upon. At this meeting the board shall appoint examiners and fix the time of examinations for the ensuing year. Such other meetings as may be necessary shall be held in St. John's, and shall be called by the secretary upon giving a reasonable notice thereof to each member.

5. The board shall consist of seven members, of whom four shall be resident medical practitioners resident in St. John's. Four members shall be a quorum for all purposes.

6. The board shall elect one of their number as president and another as treasurer, and a third as secretary and registrar. The duties of the said officers and the remuneration (if any) to be paid them shall be determined by the board.

7. The board shall have power to make rules, not inconsistent with this act, respecting:

(a) The holding of meetings, and the place and time of, and the order of business at such meetings.

(b) The filling of vacancies in the board by election, and the taking and receiving of votes of registered practitioners by proxy or otherwise at such elections.

(c) The conduct of examinations and the granting of certificates upon matriculation.

(d) The registration of members:

(e) The fees payable for registration, certificates, licenses and examinations under this act, and fixing the amount of such fees; and

(f) The inquiry by the board into complaints against persons charged with an offense under section 23 of this act, and the mode of procedure thereon.

8. The board may make such further rules, subject to approval by the governor in council, as they may deem necessary for carrying into effect the purposes of this act.

9. No person shall begin or enter upon the study of medicine, surgery or midwifery, in this colony, unless he shall have obtained from the Newfoundland Medical Board a certificate that he satisfactorily passed a matriculation or preliminary examination on the subject in Schedule A hereto.

10. No candidate shall be admitted to such matriculation or preliminary examination unless he shall have, at least fourteen days previous to such examination, given notice to the registrar of his intention to present himself for such examination, and shall, before the examination, have paid to the registrar the fee prescribed by the board.

11. The board shall cause to be kept by the registrar a book or register, in which shall be entered the name of every person registered, according to the provisions of this act, together with his place of residence, and the medical titles, diplomas and qualifications conferred by any college or body, and the dates thereof, and the said register shall be in the form in Schedule B, or as near thereto as may be found convenient. Those persons only whose names are inscribed in the book or register shall be deemed to be qualified to practice medicine, surgery, or midwifery in this colony.

12. The registrar shall, on or before the 15th day of January in each year, cause to be printed and published in the Royal Gazette a copy of said register containing the

names in alphabetical order according to the surnames of all persons appearing on the register at that date.

13. Such register shall be called "The Newfoundland Medical Register," and a copy of the same for the time being shall be prima facie evidence in all courts and before all justices of the peace and others, that the persons therein specified are registered according to the provisions of this act, and the absence of the name of any person from such register shall be prima facie evidence that such person is not registered according to the provisions of this act.

14. The registrar shall enter upon the register the names of all persons registered under the Act 56 Vic., Cap. 12, without fee.

15. Every person shall be entitled to have his name registered on the Newfoundland Medical Register upon satisfying the board that he holds a medical degree or diploma from some regular university or school of medicine, having a four years' course of study, and that he has, prior to obtaining such degree, passed a preliminary or matriculation satisfactory to the board, and upon paying to the registrar the fee prescribed by the board.

16. No qualification shall be entered on the register either on the first registration or by way of addition to a registered name, unless the registrar is satisfied by proper evidence that the person claiming such qualification is entitled to it. An appeal from the registrar shall be decided by the board.

17. Any entry proved to the satisfaction of the board to have been fraudulently or incorrectly made may be erased from the register by an order of the board.

18. Any person registered under this act who may have obtained any higher degree or diploma, other than that already recorded in the register, shall be entitled to have the same inserted in the register in addition to or in substitution for that previously inserted.

19. Every registered medical practitioner shall annually, before the 10th day of January, take out from the registrar a certificate to practice, for which he shall pay to the registrar the fee prescribed by the board. The said fee shall be deemed to be a debt due by each registered medical practitioner to the board, and shall be recoverable with costs in an action in the name of the Newfoundland Medical Board before any stipendiary magistrate or justice of the peace.

20. Every person registered under this act who shall have taken out the certificate, as provided in Sec. 19, shall be entitled to practice medicine, surgery and midwifery in any part of this colony, and to demand and recover in any court reasonable charges for professional aid or advice, together with the cost of any medicine or other medical or surgical appliance supplied by him.

21. Any person entitled to be registered under this act, who neglects or omits to take out the certificate provided in Sec. 19, shall not be entitled to any of the rights or privileges conferred by registration so long as such neglect or omission continues, and he shall be liable to all the penalties imposed by this act upon unqualified or unregistered practitioners.

22. The board may, after examination, grant to any person, not otherwise qualified or entitled to registration under this act, a license to practice medicine, surgery or midwifery for a limited period in specified localities. The names of such licensees, together with the period for, and the locality in, which they may practice, shall be entered in the register and published as hereinbefore provided in the case of registered medical practitioners. Such licensees shall pay the fee prescribed by the board, and shall thereupon be entitled to demand and recover in any court reasonable charges for aid and advice, together with the cost of any medicine or other medical or surgical appliances supplied by him during the period and within the limits of his license.

23. Whenever a medical practitioner or licensee registered under this act has been or may hereafter be found by the medical board, after due enquiry by a committee of their number or otherwise, guilty of professional misconduct or malpractice, or of conduct unbecoming a practitioner, the said board may resolve that such medical practitioner or licensee is unworthy to practice medicine, surgery or midwifery in this colony and strike his name off the books and the register, either absolutely or for a limited period, and thereupon all the rights and privileges of the said medical practitioner or licensee shall henceforth cease and determine, either absolutely or for such period.

(a) Such medical practitioner or licensee may appeal from such decision to the supreme court at its next sitting, upon giving due notice thereof to the said board (in which notice shall be set forth the grounds of appeal) within fourteen days after the passing of such resolution. When such notice shall have been given, the secretary shall transmit all papers connected with the charge and proceedings thereunder and the evidence taken thereon to the supreme court. If no notice be given within the time specified, or in case such appeal be not prosecuted at the next sitting of the supreme court, the resolution of the board shall stand confirmed.

24. It shall not be lawful for any person not registered to practice medicine, surgery or midwifery for hire, gain or hope of reward, and if any person not registered pursuant to this act practices, or professes to practice medicine, surgery or midwifery, or advertises to give advice, or gives advice, in medicine, surgery or midwifery for hire, gain or hope of reward, he shall, upon conviction in a summary manner before a justice of the peace, pay a penalty not exceeding fifty dollars, or, in default of payment, be imprisoned for a period not exceeding six months.

25. Any person who wilfully or falsely pretends to be a physician, doctor of medicine, surgeon or medical practitioner, or assumes any title, or addition or description other than he actually possesses or is entitled to, shall be liable, upon conviction thereof in a summary manner before a stipendiary magistrate or justice of the peace, to a penalty not exceeding fifty dollars, or, in default of payment, to imprisonment for a period not exceeding three months.

26. Any person, not registered pursuant to this act, who takes or uses any name, title, addition or description, implying or calculated to lead people to infer that

he is registered under this act, or that he is recognized by law as a physician, surgeon, accoucheur, or a licentiate in medicine, surgery or midwifery, shall be liable, on conviction thereof in a summary manner before a stipendiary magistrate or a justice of the peace, to a penalty not exceeding fifty dollars, or in default of payment, to imprisonment for a period not exceeding six months.

27. No person shall be entitled to recover in any court any charge for any medical or surgical advice, or for attendance, or for the performance of any operation, or for any medicine which he may have prescribed and supplied, unless he is registered under this act, and shall have for the current year taken out the certificate provided in section 19, or the license provided in section 22 of this act.

28. In any trial or prosecution under this act the burden of proof shall be upon the person charged.

29. All penalties recovered under this act shall be paid to the registrar, and shall form part of the funds of the board. Any person may be prosecutor or complainant under this act, and the board may allot such portion of the penalties recovered as may be expedient towards the payment of such prosecutor.

30. No person shall be appointed as medical officer, physician or surgeon in any branch of the public service, or in any hospital or other charitable institution, unless he is registered under this act.

31. Any person, whilst employed in actual service in any naval or military service as physician or surgeon, may practice medicine, surgery or midwifery in Newfoundland after having been registered.

32. Nothing in this act shall prevent private persons from giving necessary medical or surgical aid in times of urgent need, provided that such aid is not given for gain or hire.

33. Nothing in this act shall prevent the practice of midwifery by females.

34. If the registrar shall wilfully cause any name to be placed on the register not in accordance with the provisions of this act, he shall forfeit the sum of one hundred dollars, and be removed from his office by the said board.

35. The words "legally qualified medical practitioner," or duly qualified medical practitioner," or any other words importing a person recognized by law as a medical practitioner or member of the medical profession, when used in any act of the legislature or legal or public document, shall be construed to mean a person registered under this act.

36. The Act 56 Vic., Cap. 12, is hereby repealed; provided, that such repeal shall not invalidate anything done, or affect any right acquired by registration under the said act.

37. This act may be cited as "The Newfoundland Medical Act, 1896."

Cap. VIII—An Act to amend "The Newfoundland Medical Act, 1896."

1. Section 15 of "The Newfoundland Medical Act, 1896," is hereby repealed and the following substituted therefor:

(15) Every person shall be entitled to have his name registered on the Newfoundland Medical Register upon satisfying the board that he holds a medical degree or diploma from some regular university, or school of medicine (not being an honorary degree) having not less than a four years' course of study, and that he has, prior to obtaining such degree, passed a preliminary or matriculation examination satisfactory to the board; provided, however, that every person desirous of being registered under the provisions of this act shall, before being entitled to registration, furnish to the board satisfactory evidence of identification, and shall pass before the members thereof, or such other examiners as may be appointed by the board for that purpose, a satisfactory examination touching his fitness and capacity to practice as a physician and surgeon.

2. The following provisions shall apply to the examination provided for under the next preceding section:

Home Treatment for Tobacco and Neurasthenia. (SEE PAGE 5.)

(1) Examinations shall be held regularly in St. John's on the second Tuesday in June in each year; provided, that the said board may, if the said board deem it expedient, upon a special application in writing by any intending candidate for that purpose hold a special examination on any other date in any year.

(2) Any person desirous of presenting himself for examination under this act shall, at least fourteen days before the date of such examination, give to the registrar of the board at least fourteen days' notice in writing of his intention to so present himself, and shall with such notice pay to the registrar for the use of the board, in case of candidates at the regular annual examination of the board, a fee of fifty dollars and in case of a candidate at a special examination held on the application of such candidate, a fee of one hundred dollars.

(3) The said examination shall be conducted orally and in writing, and shall be upon the following subjects, namely:

- (a) Medicine, including pathology and therapeutics.
- (b) Surgery, including pathology and surgical anatomy.
- (c) Midwifery, including diseases of women and children.

(4) The board may from time to time make rules and regulations for holding and conducting of the said examinations.

3. A person who holds a medical degree or diploma from any of the regular universities or colleges in the United Kingdom, Dominion of Canada and the British Colonies, who has satisfied the conditions mentioned in Sec. 15 of this act as to his qualifications, and who has been duly registered under the laws in force in any of the above places where an equivalent examination to the one therein established is conducted shall be entitled without examination to be registered upon the Newfoundland Medical Register upon paying the prescribed fee and upon producing to the board a certificate of good standing in the profession from the registrar or other officers of the medical body having jurisdiction in the place at which he is registered, and satisfactory evidence that he has not lost the benefit of his said registration by misconduct or for any other cause whatsoever.

4. The board may, before accepting an applicant for registration under Sec. 3 of this act, require such applicant to attest upon oath before a justice of the peace or stipendiary magistrate the evidence required by the said action.

5. Whenever by any law now or hereafter existing in this colony any certificate or other document shall be required to be given or signed by a physician, surgeon or medical practitioner, such certificate or other document shall be void, unless the person giving or signing the same shall be a duly registered practitioner under the provisions of this act.

6. All monies received by the board, or any officer thereof, shall be paid over to the treasurer, and shall be applied for the purposes of the board under this act.

7. Sec. 30 of the Newfoundland Medical Act, 1896, is hereby repealed and the following substituted therefor:

(30) No person shall be appointed as medical officer, physician or surgeon in any branch of the public service, or in any hospital or other charitable institution, or shall act within this colony as medical officer, physician or surgeon to any company or corporation unless he is duly registered under this act.

8. This act shall be read with and form part of "The Newfoundland Medical Act, 1896," and the two acts may be cited as "The Newfoundland Medical Act, 1896-1906."

SYNOPSIS OF MEDICAL LAW OF CUBA.

Graduates of foreign institutions must present their degree to the Department in Charge of Public Instruction, and this degree must be registered by the University of Havana, providing it has been issued by an authorized institution, one which fully authorizes professional practice in the country, state or territory wherein the degree was issued; that the signatures thereto are duly legalized; each of these requirements to be proven by a certificate properly attested.

After having furnished such proofs, the department grants permission for an examination, the petitioner to be properly identified, on receipt of \$35.00 in United States money or its equivalent. The examination is theoretical, and consists of a clinical examination of one patient, description of the method of performing a prescribed operation, and a thesis, five hours being allowed for the writing of this thesis. All examinations, both written and oral, are held in Spanish, or through an interpreter; the interpreter to be chosen by the department, the applicant to pay \$15 for his services. Re-examination after six months without extra charge is permitted.

HAITI MEDICAL LAW.

The Jury Medical Central (Medical Board), which consists of four physicians and one druggist, is appointed by the President of the Republic. All physicians and dentists desiring to pursue the practice of their profession are required to pass an examination before this Board and if satisfactory a license to practice is granted. The Medical Board recognizes degrees of foreign physicians, but it makes inquiry of the proper authorities to ascertain whether the degree that the physician holds is bona fide.

THE MEDICAL LAW 1908.

Whereas it is desirable to consolidate and amend the Laws relating to Medical
and Surgical Practitioners:

Be it enacted by the Governor and Legislative Council of Jamaica as follows:

1. The laws in the first schedule hereto are hereby repealed.

2. In the construction of this law the term "register" includes the register
directed to be kept under the laws hereby repealed, as well as this law.

"Medicine and surgery" do not include midwifery.

"Legally qualified medical practitioner," or "duly qualified medical practitioner,"
or any words importing a person recognized at law as a practitioner in medicine or
surgery, or as in any kind a member of the medical profession, where used in any
act or law of Jamaica, shall be construed to mean a practitioner registered under
the laws hereby repealed, or this law.

3. The office of the registrar general of births and deaths, shall continue to be
the registry office of qualified medical and surgical practitioners, and the registrar
general of births and deaths shall be the registrar under this law.

4. The registrar shall continue to keep the register of qualified medical and
surgical practitioners, as nearly as may be according to form A in the second
schedule to this law, stating in full in the third column of such register, the nature
of the qualification or qualifications, and stating in each year the last known postal
address.

5. A copy of the register shall be published by the registrar in the Jamaica
Gazette, as soon as may be after the first day of May, 1908, and thereafter a copy of
the register, as it stands at any such time, shall be published by the registrar in

the first number of the Jamaica Gazette issued after every succeeding first day of May.

6. Every person registered under the medical laws shall be entitled to practice medicine and surgery and midwifery in this island, and to demand and recover reasonable charges for medical and surgical aid rendered by such person, and for midwifery, and for all medicines and appliances supplied by him.

7. No certificate signed after the passing of this law, which certificate is by an act or law now in force, or that may hereafter be passed, required to be signed by a physician, a surgeon, an apothecary, or any other medical or surgical practitioner, shall be valid unless the person signing it be registered under this law.

8. No person not registered under this law shall hold any office, or appointment in Jamaica, as a physician, surgeon, apothecary, or other medical, or surgical practitioner in the service of the Government of Jamaica, or any public or parochial Board, or of any friendly society, or other society for affording mutual relief in sickness, infirmity, or old age.

9. No person shall be entitled to recover in any action, any charge for any practice of medicine or surgery by any person not registered under the medical laws.

10. A council to be styled "The Medical Council" shall be established under this law for the purposes hereinafter mentioned, and it shall consist of any five registered practitioners willing to accept the appointment, who may be thereto appointed by the Governor. Provided, that the persons first so appointed, shall be the present members of the Medical Council appointed under Law 47 of 1872. Every councillor so appointed shall hold office for three years, and no longer, unless reappointed by the Governor.

11. At any meeting of the Medical Council three members shall be a quorum for the despatch of business. The council shall have power to elect one of themselves to be their president, and power to appoint as their secretary any registered practitioner willing to accept such appointment, and power from time to time to make, and to alter as they may deem advisable, rules concerning generally, the business of the council. Provided that there be always some such rule to the effect, that full minutes of the proceedings of the council be kept, and be produced on demand before the Governor in Privy Council. Such rules shall not come into operation until they have been approved by the Governor in Privy Council, who shall have power to allow, disallow, add to, or alter them, and when approved by the Governor in Privy Council, they shall be binding upon all persons concerned. Until such rules shall have been approved as aforesaid, the existing rules and regulations made and approved under section 12 of Law 47 of 1872, shall be deemed to be, and shall have the force of rules approved under this section.

12. There shall be paid out of the public revenue to any member of the Medical Council, not being a public officer, and to the secretary, the sum of two guineas for his attendance at any meeting of the council required to be held for the purposes of this law, and to the secretary the further sum of one guinea for each meeting to defray the cost of transcribing the minutes of proceedings, the cost of postage, and all other incidental expenses. All necessary supplies of stationery shall be furnished to the council at the public expense, upon requisition for the same being made to the Colonial Secretary.

13. (1) Any person duly registered in the United Kingdom as a medical practitioner, under the provisions of the Act of the United Kingdom 49 and 50 Victoria, Chapter 48 (the short title of which is The Medical Act 1886), or of any Act of the United Kingdom that may hereafter be passed, conferring the right to be registered in the United Kingdom, shall be entitled to be registered in this island, and shall be so registered upon producing to the registrar in proof of his title thereto, the diploma, license or certificate, in virtue whereof he represents himself to have been already registered in the United Kingdom, together with a declaration, according to the Form B in the second schedule to this law annexed, made by him before any justice of the peace, and impressed with a stamp for duty, by way of registration fee, to the amount of twenty shillings, setting forth that he is the person named in such diploma, license or certificate: Provided that—

1. Such diploma, license or certificate shall have been marked for identification by such justice of the peace, at the time of making such declaration; and

2. Either the name of such person shall appear in "the medical register" then most recently published under the Act of the United Kingdom 21 and 22 Victoria, Chapter 90, or he shall produce to the registrar such a certified copy of the entry of his name in the general register, or in any branch register of the United Kingdom.

(2) Any person not registered in England, Scotland, or Ireland, as a practitioner in medicine and surgery, or in medicine, or surgery, but holding a diploma, license or certificate, conferring or evidencing the possession by him of any qualification in respect whereof he would be entitled to be so registered, shall be entitled to be registered under the Medical Laws of Jamaica, according to his qualifications, on producing to the registrar such diploma, license or certificate, together with a declaration according to Form B.

(3) Any person on the register at the time of the passing of this law shall be entitled to be registered under this law.

14. Any person not qualified to be registered under the Medical Laws 1872-1885, but who holds a diploma, license or certificate granted to him by any university, or by any college, or faculty of physicians or surgeons, after and in consequence of his having passed through the course of study and examinations prescribed by such university, college or faculty of physicians or surgeons, and who wishes to become qualified, and to be registered under the Medical Laws of this Island, may make application in writing to the Governor to appoint a board of examiners.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

15. On the receipt of such application, the Governor shall appoint a board of three examiners selected from the Medical Council, and the persons so appointed shall thereupon fix a time and place for holding the examination. When members of the Medical Council are not available for holding an examination, the Governor may nominate duly registered medical practitioners for that purpose.

16. Such examination shall be an examination in Medicine, Surgery and Midwifery, and shall be practically as searching as the least searching final examination required to be passed in the United Kingdom, prior to and as a condition of the obtaining of a qualification entitling the person examined to be registered in the United Kingdom.

17. The Candidate shall first satisfy the Board of Examiners that he holds a Diploma, License or Certificate granted to him as aforesaid, and the Board of Examiners if so satisfied, shall with reasonable despatch fully and fairly examine such person accordingly, and if they shall find him sufficiently informed and sufficiently skilled, they shall give him a Certificate and he shall be entitled to be registered under this Law.

18. In the event of a candidate being unsuccessful on a first or subsequent examination, he shall not be permitted again to present himself for examination, until the expiration of six months from the date of such examination, or such longer period as may be determined by the Board of Examiners.

19. Any candidate who presents himself for any examination, or subsequent examination, shall be required to deposit beforehand with the Secretary the sum of twelve guineas, which shall not in any case be refunded to him.

20. The Secretary of the Medical Council for the time being, shall act as the Secretary to the Board of Examiners, and the Governor shall pay to each Examiner for each examination a fee of three guineas, and to the Secretary when acting as Secretary to the Board of Examiners, a fee of three guineas.

21. Every person registered under this Law, who may have obtained any higher degree, or any qualification other than the qualifications in respect of which he may have been registered, shall be entitled to have such higher degree, or additional qualification inserted in the Register, in substitution for, or in addition to the qualification previously registered, upon the following conditions, namely:

If such higher degree, or additional qualification be one conferring a right to be registered in the United Kingdom, then upon the fulfilment of conditions similar to those hereinbefore prescribed in section 13 hereof.

22. In no case where, under this Law, the qualifications of any Medical or Surgical Practitioner have to be taken into consideration with reference to his application to be registered as such, shall it be lawful, for any one concerned to take into consideration as a test or condition of the due qualification of such practitioner, the fact that he adopts, or refrains from adopting, or intends to adopt, or to refrain from adopting the practice of any particular theory of medicine or surgery. And in no case where, under this Law, any candidate offers himself for examination in order to obtain a Certificate entitling him to be registered, shall it be lawful for any one concerned, to impose upon such candidate an obligation to adopt, or to refrain from adopting the practice of any particular theory of medicine, or surgery as a test, or condition of admitting him to examination, or of granting him a certificate.

23. A copy, certified under the seal of the office of the Registrar General, of the entry in the Register relating to any person, shall be evidence that such person is registered.

24. It shall be lawful for the Medical Council, with the consent of the Governor, if they shall in any case think that any person registered as a Medical or Surgical Practitioner, whether so registered before, or after the coming into operation of this Law, has improperly obtained such registration, to require such person to re-register himself according to the provisions of this Law. If for a period of three months, or for such longer time as may be specially allowed by the Council, after being so required as aforesaid, such person neglects so to re-register himself, and neglects to explain in a manner satisfactory to the Council, his neglect so to re-register himself, the Council may if they think fit, direct the Registrar to strike the name of such person off the Register, and the Registrar shall obey such direction.

25. It shall be the duty of the Registrar to keep the Register correct in accordance with the provisions of this Law, and to make from time to time before the annual publication in the Jamaica Gazette, the necessary alterations in the addresses, or qualifications of the persons registered under this Law, and to cancel in the Register the names of all persons registered under this Law, who shall have died, or ceased to be qualified.

The Registrar shall on or before the first day of March in each year, write a letter to each registered person, addressed to him according to his address in the Register, to enquire whether he has changed his residence, and if the Registrar shall not receive an answer to such letter within six months after the sending thereof, it shall be lawful for him to cancel in the Register the name of such person. Provided that the same may be restored by order of the Medical Council, if they think fit to make an order to that effect.

26. If any practitioner registered under this Law shall be convicted of any felony, or misdemeanor, or shall after due enquiry, be adjudged by the Medical Council to have been guilty of infamous conduct in any professional respect, the Medical Council may, if they think fit, direct the Registrar to strike the name of such practitioner off the Register. The Medical Council may, if they think fit, direct the name of any practitioner, which has been struck off the Register, to be reinstated.

27. All questions respecting the right of any person to be registered, or the mode of registration, or the liability of any person to be struck off the Register, and all questions respecting the alteration of the Register, shall in case of dispute be decided by the Medical Council, subject to an appeal to the Governor in Privy Council. Such questions may be brought before the Medical Council by the persons interested, or the Registrar may submit any such question for the decision of such

Council. There shall be an appeal to the Governor in Privy Council from any order, direction, or decision of the Medical Council under this Law. If there is no such appeal within three months of such order, direction, or decision, the order, direction, or decision shall be final. If there is such an appeal, the decision of the Governor in Privy Council shall be final, and he may give all such directions to the Medical Council, Registrar, or other persons as may be necessary for enforcing such decision.

28. The Registrar shall be furnished annually, at the public expense, with a copy of "The Medical Register" of the United Kingdom, and he shall likewise be furnished, when necessary, with books to be kept by him as the Register.

29. Any person who shall wilfully make, before any Justice of the Peace, any false declaration, purporting to be a declaration under this Law, shall be guilty of perjury.

30. If any person shall fraudulently procure, or attempt to procure himself, or any other person to be registered under this Law, by making, or producing, or causing to be made, or produced, any false or fraudulent representation or declaration, either orally or in writing, he and every person aiding and assisting him therein, shall be guilty of a misdemeanor, and shall, on conviction thereof, be fined a sum not exceeding £100, and imprisoned, with or without hard labour, for any term not exceeding two years.

31. Any Registrar, or other person who shall fraudulently make, or cause, or permit to be made any false, or incorrect entry in the Register, or any false, or incorrect copy of any entry in the Register, or any alteration in any such entry, or copy, shall be guilty of a misdemeanor, and shall be liable to imprisonment with or without hard labor, for a term not exceeding two years.

32. Any person who is not registered under this Law, but who shall nevertheless practice Medicine, or Surgery, or perform any surgical operation within this Island, for which he shall demand or receive any fee, gratuity or remuneration, shall be guilty of an offence under this Law.

(1) Provided that any Licensed Druggist who shall, from over the counter in his drug store, administer any drugs, or medicine in any case of simple ailment, shall not be guilty of an offence under this Law.

(2) Provided also that no person shall be guilty of an offence under this section, if he satisfies the Court that the services of a registered medical practitioner were not obtainable at the time of the alleged offence.

(3) Provided also that this section shall not apply to any duly qualified homœopathic, or electro-homœopathic practitioner, who shall at the time of the coming into operation of this Law, have been in continuous practice in this Island for two years previous thereto.

33. Any person, who is not registered under this Law, who shall pretend to be, or take, or use the name or title of a physician, surgeon, doctor of medicine or surgery, or master of surgery, or take or assume any other style, title, addition, designation, or description, implying that he is qualified to practice medicine, surgery or midwifery, or that he is recognized by law as a physician, or surgeon, or licentiate in medicine or surgery, or a practitioner in medicine, shall be guilty of an offence under this Law. The absence of the name of the person charged from the last number of the Jamaica Gazette, containing a list of registered medical practitioners, shall be prima facie evidence that such person is not registered.

Provided nevertheless that this section shall not apply to any duly qualified homœopathic, or electro-homœopathic practitioner who shall, at the time of the coming into operation of this Law, have been in continuous practice in this Island for two years previous thereto.

34. Any person charged with an offence under this Law shall be a competent, but not a compellable witness.

35. Any offence against this Law shall be triable in a summary manner before any two Justices of the Peace in Petty Sessions, and on conviction, the offender shall be liable to the following punishment, that is to say:

(1) For the first offence, forfeit and pay any sum, not exceeding ten pounds, and in default of payment be imprisoned, with or without hard labor, for any term not exceeding three calendar months, and

(2) For each subsequent offence, forfeit and pay any sum not exceeding Fifty pounds, and in default of payment, be imprisoned, with or without hard labor, for any term not less than three months, and not exceeding six months.

36. It shall be lawful for any person, and it shall be the duty of the Registrar, to prosecute all offenders against the provisions of this Law.

37. Nothing in this Law contained shall extend, or be construed to extend, to prejudice or in any way affect the lawful occupation, trade, or business of chemists and druggists and dentists.

38. All Medical Officers of His Majesty's Army and Navy respectively, serving in Jamaica on full pay, shall be deemed to be registered under this Law; but nothing in this Law contained shall prejudice, or affect any rights, duties or liabilities of such Officer as a Member of His Majesty's Army or Navy, or interfere in any way with the authority of any superior officer over such officer.

LAW IN REGARD TO MEDICAL STUDIES AND THE PRACTICE OF MEDICAL PROFESSIONS.

In Mexico, as in all other countries, no person is allowed to practice medicine or any medical profession without proof that he or she is a graduate of an authorized college or university.

The studies, when made in Mexico, have to be made respectively, as the case may be, in the National School of Medicine, the hospitals of mental diseases, the Charity Central Warehouse, the National Institute of Dental Instruction, the National Medical Institute, or the Pathological Institute.

When made in foreign countries the studies may be validated in Mexico upon application to the Secretary of Justice and Public Instruction, and the proof, by the proper certificate, that they have been made in accordance with the provisions of the Mexican law. Validation thus granted exempts the candidate from the necessity of being examined.

The medical professions, as classified by the decree of January 11, 1902, providing for a "Plan of Studies for the National School of Medicine," are four, as follows:

1. Medicine and surgery.
2. Pharmacy.
3. Obstetrics.
4. Dental surgery.

The course in medicine, covering a period of six years, embraces: Descriptive anatomy, with practical dissection exercises; general and histological anatomy, theoretical and practical, with the proper practical exercises; topographic anatomy with practical exercises, and pathological anatomy; physiology, with experimental demonstrations; biological chemistry; galenic pharmacy; bacteriology; pathology, medical, surgical and general; therapeutics, medical and surgical; theoretical obstetrics; clinics, internal, external, propedeutical, and surgical; medical pediatrial clinic; surgical gynecological clinics; clinic of ophthalmology; clinic of psychiatrics; legal medicine and deontology.

The course in pharmacy, covering a period of three years, embraces: Pharmacy, toxicology, pharmaceutical economy, legal pharmacy, deontology, chemical and pharmaceutical manipulations; practical management of the physical and chemical instruments and apparatuses used in pharmacy; natural history of the simple drugs used in Mexico, chemical analysis, general and applied to medicines, toxicology, and the examination of food and beverages, and of the principal physiological and pathological products.

Practice in the Charity Central Warehouse, or in the drug store of a government hospital, shall also be required as a condition for graduation.

The course in obstetrics, covering a period of two years, embraces: Anatomy and physiology of the feminine sexual apparatus, including the study of the pelvis; elements of embryology and fetal anatomy; pregnancy, labor, and puerperal conditions, physiologically considered; care required by the mother of the newly born child; obstetrical antisepsia; obstetrical hygienics; obstetrical therapeutics; obstetrical operations, with exercises on the manikin; and clinic, obstetrical and propedeutical.

The course in dental surgery, covering a period of three years, embraces: Descriptive anatomy, with dissection exercises; topographical anatomy of the head and especially of the mouth; histology, with special reference to the elements constituting the mouth; physiology; dental pathology; morbid processes in general; dental therapeutics; dental materia medica; dental surgery; dental operations; dental prosthesis; dental metallurgy; bacterioscopy.

Article 22 of the decree provides that the studies above described, whether purely preparatory or professional, made in a foreign country, may be validated by the Secretary of Justice and Public Instruction, upon such conditions as he may require.

Article 28, translated into English, reads as follows:

"Article 28. Persons holding diplomas from official schools of the Republic, different from those designated by the decree, or from foreign universities, who may desire to obtain the same from the schools and institutions named in Article 1 of this decree, for the practice of any of the medical professions established by this plan, shall subject themselves to examination, in the National Preparatory School, or in the National School of Medicine, in every one of the matters or branches above described for each profession; and if approved, they shall have to pass also the respective professional examination. But if the candidate shall prove by a competent certificate to have studied some matters in conformity with the provisions of the Mexican plan, the said studies shall be validated, and he shall be exempted from examination in the same. It shall not be necessary to take up the different subjects of examination in regular order.

LIST OF PHYSICIANS

University of ::: Pennsylvania

Founded
in 1765

...SCHOOL OF MEDICINE...

The annual session begins on Friday of the third week of September and ends on the third Wednesday of June. Attendance upon four annual sessions is required for graduation. Candidates for admission must have successfully completed preparatory work equivalent to that prescribed for the Freshman and Sophomore Classes in Colleges of arts and science recognized by this University, this including a knowledge of Physics, Chemistry and General Biology or Zoology, with appropriate laboratory exercises in each of these subjects, and two languages other than English (one of which must be French or German).

UNDERGRADUATE COURSE:

The course of instruction for undergraduates is so graded that the first and second years are largely occupied by the fundamental medical subjects arranged in a modification of the plan of concentration. The third and fourth years are largely devoted to the Clinical Branches, the class so subdivided that the individual student is brought into particularly close and personal relations with the instructors and with the patients in the operating room and at the bedside. In the fourth year the students act as ward clerks and dressers with much of the responsibility of hospital internes.

POST-GRADUATE WORK:

(1) Any graduate possessing a baccalaureate degree may pursue work in Anatomy, Physiology, Physiological Chemistry, Bacteriology and Pathology with a view of obtaining the higher degrees of Master of Arts or Science and of Doctor of Philosophy in the Graduate School of the University. For information address Dean of Graduate School, University of Pennsylvania.

(2) Courses in Public Health (inaugurated in 1906) leading to diploma are open to graduates in Medicine. The subjects comprehended in the courses are: Bacteriology, Chemistry, Sanitary Engineering, Sanitary Architecture, Meat and Milk Inspection, Vital Statistics, Sanitary Legislation and Personal and General Hygiene.

The full course extends over one academic year. Special subjects in the course may be taken by anyone possessing suitable preliminary qualifications. For details address Director of Laboratory of Hygiene, University of Pennsylvania.

(3) During the academic session special courses in any of the branches of the medical curriculum are open to graduates of this or other regular medical schools, both in the clinical subjects and in laboratory studies. Opportunity for original study is afforded at any time in the various laboratories of the school.

Special attention is directed in this connection to the Henry Phipps Institute for the Prevention, Study and Treatment of Tuberculosis, recently acquired by the University of Pennsylvania, to the establishment of laboratories of medical research and of comparative pathology and to the institution of courses of study in tropical medicine.

TUITION FEE:

Undergraduate study, \$200 annually; fees for special courses on application. For detailed information or catalogue, address Dean of School of Medicine, University of Pennsylvania, Philadelphia, Pa.

Hahnemann Medical College and Hospital

CHARTERED 1848

Broad Street above Race

PHILADELPHIA

THE Oldest Homoeopathic College in the World.
Four years of systematically arranged and carefully
graded study in medicine, surgery and midwifery.
Each annual course consists of eight months of didactic,
laboratory and clinic teaching.

Medical and surgical conferences and subclinic teaching
in all general and special branches. Seventy-five trained
and experienced instructors.

Thirty thousand patients treated in attached hospital
and dispensary, including ten to twelve thousand emer-
gency cases (second largest number in Philadelphia) re-
ceived annually, furnishing an unsurpassed supply of
clinic material.

The TEMPLE UNIVERSITY

RUSSELL H. CONNELL, D. D., LL.D., President.

Department of Medicine

PHILADELPHIA, PA.

FOR MEN AND WOMEN

Four Years' Course, Rational-Correlated Curriculum, making one of the most thorough and practical courses in Medical Education yet offered. Clinical, Laboratory and Ward instruction featured. Classes subdivided into small groups and given continuous periods of service in the hospital wards and associated laboratories, providing the maximum of personal association of patient, instructor and student.

The correlated system of teaching by which the same general subject is taught simultaneously in the different departments, introduced by the Temple University several years ago, is now perfected and made to apply to the entire course for both clinical and didactic instruction.

Ample facilities. Two large hospitals, Samaritan and Garretson, furnish abundant opportunity for clinical and hospital instruction. For full particulars address

The Harvard Medical School

The new buildings, four of which are devoted entirely to laboratory teaching and research, were dedicated September 25, 1906. Abundant facilities for general and special clinical instruction in medicine and surgery are afforded by the numerous hospitals of Boston.

Course for the Degree of M. D.

A four years' course is open to holders of a bachelor's degree from a recognized college or scientific school, and to persons who, having studied specified subjects during two years in college, are permitted to enter as special students. Special students receive the M. D. degree, if, during residence, they attain high rank. The studies of the fourth year are wholly elective; they include laboratory subjects, general medicine and surgery, and the special clinical branches.

Graduate Courses

Throughout the school-year, special courses open to graduates of recognized medical schools are offered in the various subjects of practical medicine and the medical sciences.

Summer Courses

During the summer months, similar courses are open to both medical students and graduates.

Research

In all the laboratories opportunity is given at all times for properly qualified persons to conduct original investigations.

Special Students

Students not candidates for the degree of M. D. are admitted, under certain conditions, to all courses in the school.

Matriculation examination requirements are in accordance with those of the Association of American Medical Colleges. Special preliminary course without extra expense, as provided in the College Announcement.

PLAN OF INSTRUCTION

The plan of instruction comprises a four years' graded course, consisting of didactic and clinical lectures, conferences, laboratory practice, etc., upon the essential branches of the Science of Medicine. In addition to the lectures, there are recitations, clinical teaching and practical work in the laboratory and dissecting room.

REQUIREMENTS FOR GRADUATION

Candidates must be at least twenty-one years of age. They must have attended four annual courses of lectures of not less than six months' duration, each in different years at this College; or, have attended three such courses at some other recognized medical college or colleges, and one at this; or, have attended two such courses at some other recognized medical college or colleges and two at this; or have attended one such course at some other recognized college and three at this; or, having been admitted to advanced standing in this College, by having pursued a prescribed course or courses of study in other recognized colleges and universities, as set forth by the Association of American Medical Colleges, shall be required to have attended at this College only such courses of lectures as are necessary to complete the curriculum of four annual courses of lectures. Candidates must have dissected all parts of the cadaver. They must have attended six cases of obstetrics.

The Thirtieth Regular Session will commence on the **THIRD WEDNESDAY IN SEPTEMBER, 1910**, and continue until the third Wednesday in June, 1911.

A DENTAL DEPARTMENT, in connection with the College, is now open.

Fifth year hospital course, under Board of Censors, optional.

Address the College.

NORTHWESTERN UNIVERSITY MEDICAL SCHOOL

(CHICAGO MEDICAL COLLEGE)

ARTHUR R. EDWARDS, A.M., M.D., Dean

THE MEDICAL SCHOOL OF NORTHWESTERN UNIVERSITY offers distinctly superior advantages to those who contemplate the study of medicine. Historically, it was the first American Medical School to enforce a standard of preliminary education; to adopt longer annual courses of instruction; and to initiate, in 1859, the gradual curriculum in which studies were assigned in their logical order, and in which thorough laboratory courses prepared the way for the practical, clinical branches. In the fall of 1908 another important step was taken regarding the requirements for admission, and in addition to a four years' High School course, one year's work was required in a College of Liberal Arts or recognized standing. This college work must include chemistry, physics, biology and either French or German. Closely related in its organization, and connected with the Medical School by corridors is Wesley Hospital, having a capacity of 225 beds. St. Luke's and Mercy Hospitals, each containing 400 beds are near the college. The Provident, People's and the Chicago Lying-In Hospitals are open for instruction to Northwestern students exclusively. At Cook County Hospital the school receives the same share in instruction that is given to each of the other medical schools in Chicago. In these hospitals over 44,000 cases were treated last year. In addition to this opportunity for case study 30,162 patients were treated in Davis Hall, one of the University's out-patient dispensaries. Recently an additional dispensary has been completed and opened for instruction on Calumet Avenue. This dispensary occupies one of the finest buildings of its kind in the United States.

The first two years' work in the Medical School are devoted to fundamental studies, anatomy, physiology, chemistry, histology, embryology, pharmacology, pathology, special pathology, bacteriology and etiology. In the second year physical diagnosis and elementary instruction in medicine and surgery are taught. In the third and fourth years the work is a practical application of the principles learned in the laboratories and lecture rooms. The various branches of medicine and surgery are taught through daily, personal contact with the enormous number of cases offered for clinical study in the affiliated hospitals and the University's two out-patient dispensaries.

THE COLLEGE OF MEDICINE OF SYRACUSE UNIVERSITY

HISTORY.—The famous Fairfield (N. Y.) Medical School was organized in 1812. In 1841 part of its faculty went to the Geneva Medical School and the other part to Albany. The fame of the Geneva School was soon well established. Of the learning and eloquence of her lecturers the graduates always speak with enthusiasm. In 1872 the Geneva School was moved to Syracuse and became the Medical Department of Syracuse University. Since its establishment here it has been foremost in advancing educational methods and standards of scholarship. It has steadily increased its requirements for entrance until now, in 1910, two years of college work are demanded. It was one of the first to develop a four years' graded course. It was one of the earliest to require the work of the first two years to be carried on entirely in well equipped laboratories under the instruction of professors and assistants who devote their entire time to investigation and teaching. Its clinical facilities are constantly increasing. It has with other departments of Syracuse University established a seven years and a six years combination course by which the Bachelor's degree as well as the degree of Doctor of Medicine may be earned.

MAIN BUILDING.—The main college building, with its attractive lecture rooms, numerous, spacious and well equipped laboratories, library, large study rooms for men and women respectively, modern lavatories, individual students' lockers, photographic dark rooms and an electric plant for running elevator, physiological laboratory apparatus and supplying incandescent lighting, arc lights for lantern, microscopic projection and photo-micrography, and an ample cold storage plant for the preservation of anatomical material, is one of the better appointed medical schools of the United States.

COLLEGE LIBRARY.—A rapidly growing medical library of more than 8,000 bound volumes, and a large number of the more important current medical and scientific periodicals, is accessible to students of the college.

HOSPITALS AND DISPENSARY.—Two large general hospitals, a children's hospital, a large county orphan asylum, an extensive state institution for feeble-minded children and a city free dispensary, are at the service of the faculty and are all utilized for purposes of clinical instruction.

FACULTY.—In the faculty are enthusiastic, progressive teachers who strive to advance medical education by accepting as students only well prepared men and women and insisting upon undergraduates continuing capable and doing steadily step by step the prescribed work of the curriculum. The work is so graded, however, that willing and industrious students of average ability experience little difficulty in meeting these demands.

UNIVERSITY ATHLETICS.—A Stadium, recently constructed upon the ancient amphitheatre plan, seats about 20,000 people and provides unusual accommodations for college sports and competitive games. At one end of the Stadium is an unusually large and well-appointed gymnasium. Fee, \$6.00 annually.

COLLEGE FEES.—The annual matriculation fee is \$5.00. The annual tuition fee is \$125. Laboratory and graduation fees amount, during the four years' course, to \$125.

ROOMS AND BOARD.—Good rooms for one student can be had in Syracuse for from \$6.00 upward per month, and the same rooms occupied by two students for from \$8.00 upward per month. By clubbing together in clubs of from six to twelve students, good board can be had for \$3.50 a week per student.

Pheno-Cholate

(BROWN)

For the treatment of **GALLSTONE DISEASE** as suggested by Reynold Webb Wilcox, M.D., LL.D., New York Post Graduate Medical School and Hospital, in the Journal of American Medical Association, August 4, 1906.

R
 Acid Sodium oleate.....gr. 1½
 Acid salicylic true.....gr. 1½
 Phenolphthaleinegr. 1
 Mentholgr. ¼

Sig.: Four to eight in a full glass of hot water once or twice daily.

What Dr. N. LaDoit Johnson, Republic Building, Chicago, Ill., says about this tablet:

Chicago, Jan. 4th, 1908.

The Brown Company,
 35 W. Kinzie St., Chicago.

Gentlemen:—Some time ago you asked me my opinion, with regard to your Pheno-Cholate tablets. I have employed them in the treatment of some twenty-five odd cases, where operation has proven the presence of Gall Stones and Cholio-Cystitis.

I have found them the most efficient remedy which has ever come into my hands, for the relief of the inflammatory condition in the Gall Bladder as well as the happy reaction upon the liver.

I use them according to the case, ranging from three to eight a day, and will state that in a number of cases that were badly jaundiced, that they have removed practically all of the discoloration from the skin and the eyes.

I believe you have one of the most valuable combinations in this tablet that has ever been offered to the profession for any of the inflammatory conditions of the Gall Bladder and Bowel passages.

Wishing you success in your efforts to assist the physicians, I beg to remain,

Yours truly,

N. LA DOIT JOHNSON.

SOMETHING ELECTRICAL FOR EVERY DOCTOR

Wall Cabinets for the General Practitioner.

Cautery Appliances for Eye, Ear, Nose and Throat Work.

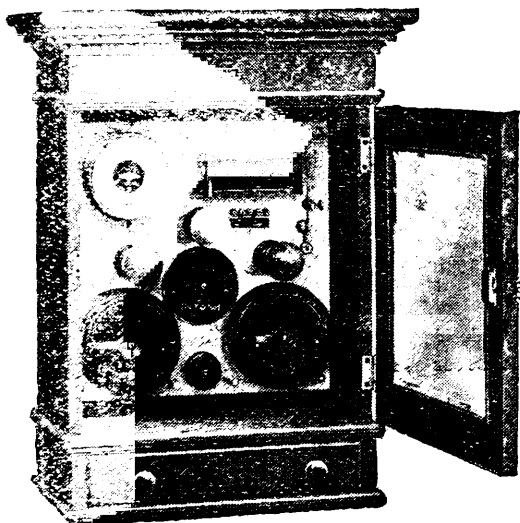

Electrodes for the Genito-Urinary Specialist.

Head Lamps for the Diagnostician.

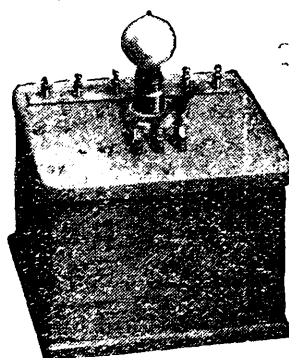

X-Ray Apparatus for the Surgeon.

Vibrators for the Massage Specialist.

Portable Batteries for Visiting Use.

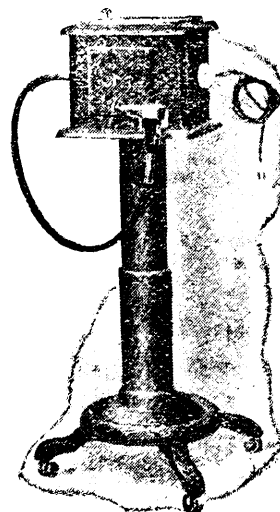

The McIntosh Type 12 Plate illustrated, has a unique Dial Current Selector—one turn of the knob selecting the exact current desired, plainly indicated on the Dial. Includes MacLagan Wire Rheostat, Cautery and Sinusoidal Transformer, Monomotive Rheotome, Large Faradic Coil, Improved Shunt Meter, novel Double-indicating Pole Changer, together with necessary switches and binding posts. Affords eleven separate and distinct modalities. A marvel of convenience and efficiency at a most reasonable price.

The McIntosh Improved Alternating Current Rectifier with Potential Equalizer converts alternating current to a steady direct current free from pulsation. Priced at a most reasonable figure.

The McIntosh-Carpenter Vibrator possesses many distinct features of excellence, a few of which are as follows: No vibration is transmitted to operator, due to a perfectly balanced double eccentric and a spring taking up the recoil. Perfect adjustment of stroke is effected during operation by a trigger, constantly under control of operator. Flexible shaft is relieved of strain by a perfectly poised ball-bearing mounting of cabinet, thus lengthening the life of the cable. The price is an inducement.

Ask for a copy of our 1910 complete illustrated catalogue, the biggest, brightest and best price list of electro-therapeutical apparatus ever issued.

PEACOCK'S BROMIDES

In Epilepsy and all cases demanding continued bromide treatment, its purity, uniformity and definite therapeutic action insures the maximum bromide results with the minimum danger of bromism or nausea.

CHIONIA

is a gentle but certain stimulant to the hepatic functions and overcomes suppressed biliary secretions. It is particularly indicated in the treatment of Biliousness, Jaundice, Constipation and all conditions caused by hepatic torpor.

LISTERINE is a powerful non-toxic, non-escharotic antiseptic.

It is a saturated solution of boric acid, reinforced by the antiseptic properties of ozoniferous oils.

It is unirritating, even when applied to the most delicate tissue.

It does not coagulate serous albumen.

It is quite generally accepted as the standard antiseptic preparation for those purposes where a poisonous or corrosive disinfectant can not be used with safety.

It is particularly useful in the treatment of abnormal conditions of the mucosa, and admirably suited for a wash, gargle or douche in catarrhal conditions of the nose and throat.

In proper dilution, it may be freely and continuously used without prejudicial effect either by injection or spray, in all the natural cavities of the body.

There is no possibility of poisonous effect through the absorption of Listerine.

"The Inhibitory Action of Listerine," a 128-page pamphlet descriptive of the antiseptic, and indicating its utility in medical, surgical and dental practice, may be had upon application to the manufacturers, Lambert Pharmacal Co., St. Louis, Missouri, but the best advertisement of Listerine is.....

Official Organ of the American Homœopathic Ophthalmological, Otological and Laryngological Society, yet Replete With Practical Articles for the General Practitioner.

A 36-page Journal (of Scientific material). Last volume averaged 49 pages in each issue. Almost one-third of the articles in the last volume were of especial interest to the general practitioner.

"A homœopathic physician is one who adds to his knowledge of medicine a special knowledge of homœopathic therapeutics and observes the law of similia. All that pertains to the great field of medical learning is his by inheritance, by tradition, by right."
—Official definition.

..The.. MEDICAL CENTURY

The National Journal of Homœopathic Medicine and Surgery

RESUMED PUBLICATION WITH THE JANUARY, 1910, ISSUE
DR. W. A. DEWEY, ANN ARBOR, MICH., *Editor*.

The *Medical Century* stands where it formerly stood, as the only Homœopathic Periodical in the United States, not local in character, nor bound by alliances which restrict its field of usefulness.

It represents no Organization, Pharmacy, College, Hospital or Publishing House; it represents

The Homœopathic Profession of the United States

It will publish the best of Homœopathic thought from all sources, and will aim to be a *live representative of Homœopathic interests*, wherever they exist. A *Special feature* will be the continuance of News Items, Society and College Notes and Editorial Comment, which will keep the profession informed of what is going on in the *Entire Homœopathic School of Medicine*, as well as in the *General Medical World*.

Department of Pharmacodynamics and Therapeutics conducted by Dr. William Boericke, San Francisco, Cal.

The Subscription Price as formerly, \$200 per Year

FIFTY-EIGHTH YEAR OF PUBLICATION

The North American Journal of Homœopathy

EDITED BY

EUGENE H. PORTER, A. M., M. D.
HILLS COLE, M. D.

Subscription Price, Three Dollars a Year

The first Homœopathic Journal published in America, the NORTH AMERICAN, is still regarded throughout the world as the representative journal of the practitioners of homœopathy in North America.

The NORTH AMERICAN is not the organ of any professional institution or organization. **It is actuated by a spirit of loyalty to the best interests of homœopathy and its adherents throughout the country.** It is in no sense local; its circulation in any state compares favorably with that of any local journal.

The list of subscribers shows a steady increase among the most successful practitioners, those who will pay three dollars for a high-class journal.

The editorial policy is distinctly progressive. It stands for all that is of value in the realm of medicine. It fosters local interests by having a Regular Correspondent in all important centers, including the chief cities of Europe, and is represented at the leading medical meetings by a member of the editorial staff.

The standing of the NORTH AMERICAN is attested by its list of contributors. **The leading practitioners throughout the country** have always chosen it for the publication of their contributions to homœopathic literature.

DR. GEORGE BROWN'S COTTON SEED OIL EMULSION

for the treatment of Pulmonary Tuberculosis and other wasting diseases. After eighteen months of thorough and continued use by the Pine Ridge Sanatorium, and Physicians in other cities, it has been accorded their unqualified approval.

COMPOSITION:

Cotton Seed Oil 33 $\frac{1}{3}$ % with Hypophosphates and Aromatics.

DISTINCTIVE FEATURES:—Easily digested and assimilated; remarkable fattening qualities in cases of emaciation, inanition and malnutrition (case records showing average gains of three to five pounds per week); may be taken without producing nausea or derangement of the stomach in 95 per cent of the cases that cannot tolerate cod liver oil.

Physicians and Druggists are invited to send for sample and prices. Free booklet of opinions by eminent authorities on therapeutic value of Cotton Seed Oil. Address:

TENT COTTAGE HOMES105 Cheyenne Road, COLORADO SPRINGS, COLORADO
DR. W. A. SHEPARD, Medical Director

These Tent Cottage Homes are a modification of a house, and a porch or tent life, and are especially designed for advanced cases of tuberculosis. They have three rooms: one for the patient, one for the attendant, and a kitchen. They are perfectly furnished, have water in the kitchen and electric lights in all the rooms. There is a north and south porch on each cottage. The windows are so arranged that the patient can have perfectly pure air, modified in quantity and temperature to meet his need. Usually some member of the family or a nurse accompanies the patient. A scientific use of oxygen and other medications by inhalation has proved remarkably successful. Correspondence solicited.

SETON HOSPITAL

CONDUCTED BY THE

SISTERS OF CHARITY**A High-Class Hospital**

that offers accommodations that are superior in every respect, and combine the comforts and luxuries of the home with the strict appointment of modern sanitary science.

Trained nurses of superior skill are in charge of the patients, and the diet is the best. Rooms light and well ventilated. Capacity 60 beds. Open on equal terms to any reputable physician.

A Training School for Nurses

is maintained in connection with the hospital, under the direction of one of the Sisters.

SISTER FLORENTINE, Superior.

Tel. West 2614.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

ACTIVE PRINCIPLE TABLETS

OUR GUARANTEED HIGHEST PURITY.

Honorably Made for an Honorable Profession.

The CaPhenin Chemical Company

ESTABLISHED IN 1896

Known among Doctors as "The Iowa Tablet House," manufacture a complete line of the Active-Principle Tablets, fearlessly branding them "Highest Purity," and insuring this quality by a Guaranty. Serial No. 3419, filed with the Government in conformity with the Pure Food and Drugs Act.

When in doubt as to the quality of the tablets you are using, Doctor, secure a supply from this Company and make your own comparison.

Prices from 5 to 20 per cent lower than those quoted by other houses who are making reliable goods.

Best of shipping facilities. Terms reasonable.

We invite correspondence. Our products are never advertised nor sold to the laity.

Why the therapeutic value of

Iodized Calx-Mangan

(Iodized Lime and Manganese)

exceeds that of all other preparations of a like nature in the treatment of Membranous Croup, Glandular Tubercles, Fibroid Tumors of Uterus, Ulcers, and as a General Alterative, may be directly attributed to the properties of Manganese embraced in the product.

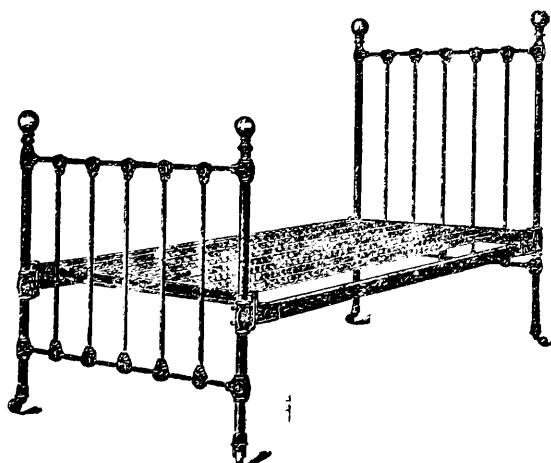

Manganese is an excellent remedy for use in flatulency, chlorosis, etc., therefore its combination with iodine will readily appeal to the physician. Besides being rich in oxygen, thus making a more stable product, the manganese tends to overcome the irritating effects of the iodine.

CAUSE AND PREVENTION OF PREMATURE DEATH IN MEN

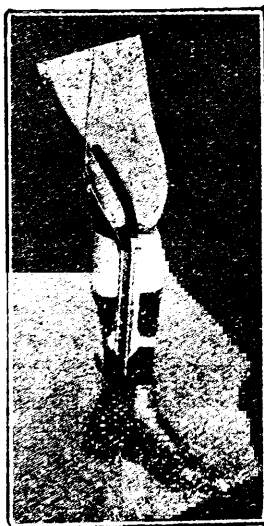

Four-fifths of all men, past twenty, have catarrhal granular ulcer in the prostatic urethra, extending into the neck of the bladder; even excluding those having had gonorrhea, as they all have it. These are stubborn facts proven by a quarter of a century's clinical observation. Now, think of an open, ulcerated surface exposed to over two hundred varieties of toxic bacteria. Is it a wonder that we have obscure pains in head, back of neck, so called "grippe," appendicitis, rheumatism, etc.? Nature comes to the relief in most of these cases and throws out a covering of tenaceous mucous: but cold feet, an acrid urine, either too acid or too alkaline, will denude the surface of the mucous covering, causing a stinging or burning sensation until it is restored, or some palliative remedy is given. Although this gives temporary relief, yet the ulcer is spreading and involving other organs; besides the granulations, under the mucous, is being constantly absorbed and carried by the circulation to the end-arteries, especially, of the brain, heart and kidneys, giving rise to emboli and infarctions, causing hemorrhage by rhexis or clots in the fourth ventricle or heart.

These can be prevented only by getting at the source of the trouble.

Dr. Overall's book on the "Non-Surgical Treatment of These Diseases" is the only method. Price \$2.00. Rowe Publishing Co., 74 E. Madison St., Chicago, Ill.

METAL URINAL APPARATUS AUTOMATIC

This apparatus is used by men and women that cannot hold urine, while journeying. This apparatus is utile and clean to be used when walking in the streets for those who cannot hold urine.

Anyone using this apparatus is able to voyage, walk, dance, and remain in conversation without being noticed, while using it.

This cut shows the apparatus on the leg.

This apparatus is guaranteed.

THE PINES

A SANATORIUM FOR TUBERCULOSIS

BLACK MOUNTAIN, NORTH CAROLINA

The Pines is a private Sanatorium for the treatment of early Tuberculosis of the Lungs and Throat. It also receives for care and post-operative treatment, such surgical cases as are due to a Tubercular origin.

Far advanced cases are not received.

The climate of the Mountains of Western North Carolina is stimulating and invigorating and is a material aid in restoring one to a normal physical condition.

Altitude 2,500 feet.

The Dietetic-Hygienic treatment is carried out in the Sanatorium and such other treatment as each individual case seems to need.

Tuberculin is used in selected and suitable cases.

The rates are from \$20.00 to \$35.00 per week, depending on room selected and care needed. This includes room, board, daily medical attention and ordinary attentions of a trained nurse.

A booklet will be sent you if you wish it.

PATTERSON INSTITUTE

FOR THE TREATMENT OF

All Drug, Liquor Habits, and Nervous Disorders

Organized in 1893 by the present owner and manager, C. E. Patterson, M. D., who also originated the plan of treatment used, and claims for the treatment superiority over all others, insomuch that any form of opium habit or liquor habit can be treated without sickness or suffering, and even freedom of patient not prohibited. Not even nurses required. All desire for liquor absolutely gone within one week. Prefer to have them stay with me four weeks to make cure permanent. Treatment has been used with success in this Institute now 16 years, and in the Fairmount Home of Cleveland, Ohio, 12 years. WILL SELL State rights, together with all formulas and technique of treatment. Write for particulars.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

TO SUPERINTENDENTS OF HOSPITALS AND PHYSICIANS.

STERILIZED HOSPITAL GAUZE and COTTON

OUR ABSORBENT COTTON

Is IN LAYERS, rolled in tissue. Our long experience in the manufacture of Absorbent Cotton leads us to say that we are producing a line of goods superior to any in the market.

THE ABSORBENT GAUZE

Is noted for its soft finish, and being entirely free from all sizing is particularly adapted for surgical dressings and sterilized sponges. Our gauze is used by Hospitals all over the United States and Canada.

Write for particulars on bandage rolls. A great convenience for bandage purposes, and always ready for emergency use.

Do not place your order for any of these goods without first getting our prices.

DOCTOR! DON'T FIT A TRUSS

FOR RUPTURE. WHY? Simply because not more than **ONE** out of **TEN** of these old-fashioned oft proven injurious appliances give your patients satisfaction.

STUART'S PLAS-TR-PADS

are a newly patented self-adhesive 20th Century arrangement and are **Entirely Different** from the Painful truss. **No straps—no buckles—no springs, cannot slip, so cannot chafe or compress** against the pelvic bone. They **adhere** closely to the body and hold the weakened muscles together. Have **cured** the most **obstinate** cases in a few days. **Easily applied—soft as velvet—inexpensive.** Physicians all over the country are treating their patients by the **Plas-tr-Pads** without their being hindered from their work.

EVERY DOCTOR OUR AGENT.

Liberal discounts. Write for confidential prices and full particulars, also our plan for **FREE** fever thermometer. Address, Department P. M. R.

PLAPAO LABORATORIES, Inc.

St. Louis, Mo.

ST. FRANCIS HOSPITAL

FREEPORT, ILL.

THIS INSTITUTION is conducted by the Franciscan Sisters. It has been recently enlarged and will now accommodate **100 patients.**

It is thoroughly equipped with the most modern arrangements, including **X-Ray** and other scientific appliances.

For information regarding reception of Patients, Terms, etc., address

J. C. SCHNOTER'S KNITTED SUSPENSORIES

Established 1870

J. C. SCHNOTER'S
Army and Navy Suspensory.
Linen, 75c; Best Silk, \$1.00. Guaranteed and manufactured only by

THE J. C. SCHNOTER CO., (Headquarters), 523 Sixth Ave., near 31st St., New York, U. S. A.

Are the only perfect ones on the market. The pouch being seamless, is elastic, easily adjusted, making a delightful support; perfectly constructed for comfort and recreation. A permanent relief for Varicocele (Hirsocoele), Hydrocele, etc. The only Hygienic Suspensories that have the full indorsement of Physicians and Surgeons. Nothing but the best and purest of materials are used in their construction. These bandages have stood the test of the entire world since 1870, and still lead as the best despite the many worthless imitations that have sprung up since. Little was known of any other make at that time. Ask your druggist for the "**GENUINE SCHNOTER'S SUSPENSORY BANDAGES.**" (Look for our trade-mark, J. C. S.) If he has not our make in stock, and refuses to get it for you, send direct to us and we will mail to you in plain wrapper on receipt of price. Plain style, COTTON, 30c and 40c; LINEN, 50c; SILK, 50c, 60c, and 75c; A. & N. Style: no elastic, 30c; Army and Navy Style with elastic belt and straps: Cotton, 65c.

DOCTOR! THIS IS WORTH KNOWING

THE J. C. SCHNOTER SUSPENSORY BANDAGES.—"It is a well known fact that many suspensory bandages on the market are not manufactured on hygienic or correct surgical principles at all. They lack shape, and therefore are useless as a support. Some are made of cheap colored material, causing as a result eczematous scrotal eruption. Some are made, on the other hand, of so thin a material that, after being worn for a day or two, stretch to such an extent as to be perfectly valueless. There is a firm in New York, however, who have for many years made a suspensory bandage WHICH IS A BANDAGE, and which has secured for the firm the endorsement of the medical profession. The house referred to is J. C. SCHNOTER CO., of 523 Sixth Avenue, New York City. This Company builds every appliance on true and correct surgical principles, so that it is little wonder that they have attained to the position of confidence already reached." —Canadian Journal of Medicine and Surgery, September, 1899.—Ask your druggist for the "GENUINE SCHNOTER'S SUSPENSORY BANDAGES." (Look for our trade-mark, J. C. S.) If he has not our make in stock, and refuses to get it for you, send direct to us and we will mail to you in plain wrapper, on receipt of price. Plain style, Cotton, 30c and 40c; Linen, 50c; Silk, 50c, 60c and 75c; A. & N. Style, no elastic, 30c. Army and Navy Style—with lisle elastic belt and straps—Cotton, 65c; Linen, 75c. Best Silk, \$1.00. Guaranteed and manufactured solely by

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

POMEROY COMPANY

34 E. 23d St., NEW YORK CITY.

THE "MASTER"
Surgical Elastic Stockings
(See adv. in Classified Sup-
porters.)

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

Don't STAMMER

are endorsed by hundreds of ex-pupils, prominent physicians and leading business men. Book, "Advice to Stammerers" and reference sent on request. Address The BENJ. N. BOGUE INSTITUTE FOR STAMMERERS. 1414 N. Illinois, Indianapolis, Ind.

I cured myself after stammering badly for nearly twenty years. I now employ the same methods to cure others. As "like cures like," what worked a cure with me will likewise permanently cure others. Graduates are found in every state, territory and some foreign countries. Students are accommodated in a home-like dormitory. Methods

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.
